## JEFFRIES FIGHT AT ANY PLACE

Jeffries Says Only Reason for Meeting Johnson Would be to Hold Championship

VANCOUVER, B. C., March 11.—Jack Johnson started for Chicago at 10 o'clock this afternoon, giving an exclusive interview to the United Press. Although not making a direct statement regarding the purse for a fight with Jeffries, it is understood he wants \$50,000, winner \$30,000, loser \$10,000.

"I don't see why Jeffries shouldn't fight me," he said. "He fought Hank Griffin twice, Bob Armstrong, poor Peter Jackson, and got a reputation. He's no better than I am. I want to fight Jeffries above anyone else. I will fight him any place on earth, indoors or out. I'll meet him any time, tomorrow if necessary. Jeffries can settle the number of rounds, long enough to earn a fair decision."

NEW YORK, March 11.—Jeffries is nearer making a direct statement of intention to fight Johnson today than ever before. There is no other doubt that he is trying to get to condition. The question of success attending his effort is the only trier in the way of the challenge.

"If I ever fight again it will be with the negro, and then only to win back the championship to the white race."

It is generally expected at the courthouse that the salaries bill will be passed within a few days. The provision of the bill is that it shall take effect immediately, though it is not certain that the raises in salaries will be claimed before the end of the present terms of office.

No other changes of remuneration were made by the amended bill than those regarding the offices of the sheriff and assessor. All other changes remain as previously reported.

## Dr. Pierce's Favorite Prescription

*Is the only medicine sold through druggists, for woman's peculiar weaknesses and ills, the makers of which are not afraid to print its every ingredient on its outside wrapper? Is this not worthy of your consideration if you are a poor sick invalid woman?*

The formula of Dr. Pierce's Favorite Prescription will bear the most critical examination of medical experts, for it contains no alcohol, narcotics, harmful, or habit-forming drugs, and no agent enters into it that is not highly recommended by the most advanced and leading medical teachers and authorities of their several schools of practice. These authorities recommend the ingredients of Dr. Pierce's Favorite Prescription for the cure of exactly the same ailments for which this world-famed medicine is advised.

## JURY ACQUITS CARL SCHULTZ

Evidence Sufficient to Convince Them Horse Was Not Well When Sent Out of Stable

"Not guilty" was the verdict brought in yesterday afternoon by the jury that heard the evidence in the trial of Carl Schultz, charged with overdriving a horse belonging to the Iowa Stables. The defense placed eleven witnesses on the stand. The jury of eight men was convinced that the horse was not a well horse when he was sent out of the stables. The defense did not deny that the autopsy upon the horse showed over-exertion, but it took the attitude that the horse was physically weak and could not stand the ordinary usage

given it by the boy on the twenty-two mile drive over the roads west of the river on a day following a rain. The defense had Maitland Smith, Mrs. S. C. Kelley, Thomas Williams, James Wheeler and others on the stand to show that they saw the horse at different points on the trip and that he did not appear to have been overdriven. Carl Schultz testified that the horse went well until on the road home when there were signs of sickness. He thought best to take the horse on into town rather than splo, and he therefore drove on. It took him a longer time to make the trip that day than usual. Elmer McCarty and Roy Parker, who used a part of the carcass for feeding to chickens, stated that a large quantity of intestinal worms were found in the horse.

On the jury that acquitted Schultz were Robert McFadden, C. C. Young, William McKenney, W. W. Buell, W. F. Gully, Samuel Ross, W. A. Penrod and A. H. Hall.

## WOULD USE HOBOES IN CLEANING STREETS

Anaheim Chamber of Commerce Proposes Making Weary Willy Useful

Just at present Santa Ana is finding the hobo very useful in cleaning up parkings and curbs where weeds have grown large. Anaheim wants to put hoboos to work. The Anaheim Gazette says:

"If the city trustees adopt a suggestion which will be presented to them at their next meeting by a committee representing the chamber of commerce, hoboos are likely to side-step Anaheim or make a quick passage through town when inclination leads them in this direction. The plan suggested by Director Weisel and unanimously approved by the board at the meeting Monday even-

ing, is that every vagrant be put to work on the street or other public property. From such as are fed at public expense the community will thus derive some benefit, but the natural result of the adoption of this plan will doubtless be that Wandering Willies will be careful to stay away from Anaheim, and that is the object sought."

## to Join Our Excursion TUESDAY, March 16, and See Our Lands at LINDSAY

We are looking for the man that wants the best there is in the land investment—either for a home or for a place to put idle money where it will do the most good. We want the man that knows orange land when he sees it, one that has lived in the Southern California districts, or from the East. We want you to investigate the Lindsay district, the place that every one will refer to as the STANDARD ORANGE GROWING, THE PROVEN DISTRICT.

We have over 2000 acres, in several bodies, right among the orange groves, all located near the orange packing houses; which this year brought the lucky orange growers nearly \$1,000,000, and next year, with the groves coming into bearing, will increase this about 50 per cent.

WATER IS KING IN CALIFORNIA, and especially in the Lindsay district where it is obtained in large quantities near the surface.

Remember, we can demonstrate the following points of superiority over the southern and older orange districts:

Better and more uniformly suitable soil, no insects, scale or smut, earlier ripening, about six weeks, absence of fogs, more abundant and cheaper cost of producing oranges, better oranges in size, weight, form, flavor and keeping qualities.

We sell ten and twenty acre tracts at \$90 to \$125 an acre with the best of terms.

We assist settlers in all possible ways, and look after non-resident buyers' interests.

We have an excursion to Lindsay Tuesday evening, March 16th and will make a rate of \$10 for the round trip from Santa Ana. We want you to get our free booklet and map, and plan to investigate the best and safest spot in the famous San Joaquin Valley.

#### LOS ANGELES PRODUCE MARKET

The first car of northern celery received in Los Angeles this season was unloaded yesterday morning. It was shipped here from the peatlands of the Sacramento Valley and is of better size and higher quality than the last of the local celery. The final car of local celery grown in the Smeitler field, is expected in tomorrow. It ends a short season, one that brought considerable money to the growers on account of the high prices which prevailed throughout the three months of celery harvest. There has not been a single break in celery, while there were several last year. Prices have been at the lowest at \$2.50 a crate and they have gone up to \$4. This has allowed a wide margin for profit. The output has been estimated roughly at 400 cars, many of which have been shipped east. The new northern celery is grown by the California Vegetable Union, and the prices on it were fixed at \$4.50 a crate on the jobbing market yesterday. Some small local stuff sold low, but it was very inferior in quality.

The egg market was very firm. There was some talk of placing the arrivals in storage at present, but this is an impossibility since the early spring stock is too soft, and prices are still too high to store eggs with any reasonable show for fair profits. The selling of case count went along merrily and the price was frequently half a cent higher than quotations. Arrivals were 601 cases.

The decline which has so long been expected in butter finally came yesterday. It was not a very heavy drop but sufficient to show the weakness of the market. Creamery extra went to 72½ cents per two pounds. Firsts were unchanged on account of the lack of that quality. There was some good buying at the lower quotations. Arrivals were 24,722 pounds.

Wisconsin twins were in good demand in the cheese line. Northern fresh sold well. There were no price alterations. The receipts of the day were 1057 pounds.

Potatoes were in fair demand. Two cars of Highlands were sold at the regular figure. There were other smaller sales, nearly all of northern stock. Idaho spuds are cleaning up fast. Receipts were about 12 cars, while rose advanced to \$2.25 a hundred. Onions were steady, but not

in much demand. A car constituted all arrivals.

The demand for beans was better than for several days past. The receipts were exceedingly light. There were no changes in sweet potatoes.

Ham and lard both advanced in all grades. The demand for lard has been heavy on account of the Lenten season, when meat drippings are not plentiful. Eastern arrivals of ham have been light here. All poultry advanced yesterday again owing to the good call for it and the general scarcity. Dealers are offering as much as 26 cents for broilers. Fryers are bringing 23 cents.

Vegetables were down in a number of instances. Peas dropped to 6 and 8 cents on good stock. Asparagus, white, heavy stock, sold from 7 to 10, while the green grass brought from 12 to 15 cents.

Hay advanced again despite the heavier arrivals of alfalfa from Imperial Valley. Alfalfa, however, did not go up, but remained at the lower figure. The new price on oat and wheat hay runs up to \$28 a ton.

## PERVERSION OF THE MIND

One of old said "man is fearfully and wonderfully made." But it does not require inspiration to show that man is "wonderfully" made. It is a matter of common knowledge. The complexity of man leads a modern poet to say "the greatest study of mankind is man," and making due allowance for poetical license, this is measurably true. Some way we seem to be beyond reach of ourselves. As to whether we would under certain circumstances do this or that is all a matter of conjecture with us. We cannot always be sure of ourselves, and so we are more or less a wonder to ourselves.

But we are "fearfully" made also, and therein lies food for reflection. It is so physically, mentally and morally, and when a law of our being has been violated, we are in all these respects capable of the most intense suffering. What is more fearful still is that we do not hesitate to violate such laws, though we well know the penalty.

Here is a two-dollar bill made with a pen. And yet it passed over the counter, for it is a work of art. The genius and time taken to produce it, if employed in a legitimate way, would probably have netted hundreds of dollars, with no prospects of the penitentiary at the end. Explain it if you can.

A young man is now before the courts on a very serious charge. This is no surprise to his friends, for they have ceased to wonder long since. He is a very competent and successful member of a lucrative profession. He might today, instead of languishing in a cell, have occupied a commanding position in the state. No one knows it better than he, and yet he prefers the life of a crook. Such is his past history, and though he must have known all along, both from observation and experience that "the way of the transgressor is hard," he deliberately turned to it as a matter of choice. And in doing this he turned his back upon prospects of the brightest hue.

How fearful to contemplate such aberrations of the will of man! It is a plain case of moral suicide—the most tragic of all spectacles.

But these cases do not stand alone. The same forces that produced them are at work in us all, and if allowed control, would end in some such way. It is true that we are all "fearfully" as well as "wonderfully" made, and the only protection we can have from

the fate of the evil doer, is to foster the best within us and repress the bad.

## THEY ARE MORAL IDIOTS

A forger has just been apprehended who has probably been the most successful of his kind in this country, and perhaps in the world. His career has extended over many years and his profits from the "business" aggregate the immense sum of \$1,000,000. In the meantime he has been compelled to change his name four hundred times. What a genius was here! Had he put his talents to a proper use he could no doubt have been many times a millionaire, worn diamonds all his life, moved in the best society, holding responsible positions in life. But now the end has come, as he must all along have known it would, and his toilet will be stripes, his home states prison, with hard work and poor grub thrown in to even up the full measure of his troubles.

It is said that "an old fool is the biggest fool of all," the inference being that age and experience should teach us wisdom. This is a fact, but some fools are born such, and age but adds to their foolishness. The real facts of the case are that the greatest of all simpletons is the one with talents who makes it subservient to his criminal instincts. When, oh, when, will all such moral idiots learn that "honesty is the best policy?"

## \$100 REWARD, \$100

—The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

## Attractions at the Theaters

### The Ellefords

The very acceptable mixture of pathos and comedy, "The Two Orphans," was given a very meritorious production last evening by the Ellefords and drew a liberal patronage in spite of the counter attraction. The piece contains several very strong dramatic scenes, which were fully carried out by the company. The performances of this company grow better each evening and it is safe to say that the house will be crowded before the end of the engagement, as Manager Elleford is giving better productions than many of the one nighters who charge high prices, and the only wonder is how he does it at his popular prices.

Tonight will see a play that teams with the atmosphere of the Old Homestead, in the rural drama by Ernest Lamson, "From Farm to Factory." There are the old quaint characters and lots of good comedy running throughout the four interesting acts. There will be a new illustrated song and several startling scenic effects, including the old farm.

The story that is familiar to us all, "Cinderella," will be given at the Saturday matinee.

## THE KANSAS TIN SHOP

No. 4

We have observed that among he lines of business represented in Santa Ana some of the hardware houses are trying to boost their business by "going for it."

Those fellows are sending out "drummers" thus acting on the advice of some of the jobbing houses.

Now, it costs lots of money to send a man out on the streets and highways and it don't add to the general volume of business (except as hereinbefore stated.)

For the past twenty-three (23) years we have been "doing business" in Santa Ana and we have been fairly successful.

We have endeavored to give full value for the money we have received.

We have relied on square dealing and legitimate advertising to secure a fair share of the business of town and country.

We have no quarrel with anyone who chooses to send out solicitors for any purpose they may choose, but we will not follow them in that line.

But instead we will estimate a fair value for the time spent in "drumming" for the business and give the buyer the benefit.

We are aware that we will be accused of CUTTING PRICES and before we get through with this matter the evidence of that fact will be conclusive.

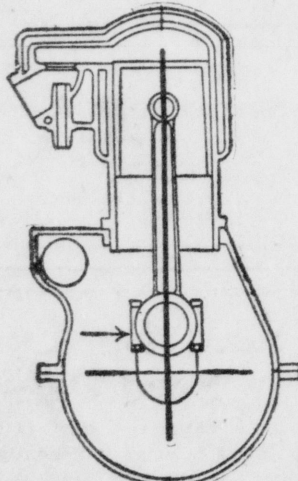

We have not been exacting an undue margin for our time and the money employed.

We "own every brick in the hut" we occupy and feel fully able to transact the business on a smaller margin than we otherwise could.

We have fully concluded that instead of dividing our profits with the "Drummer" we will divide with the purchasers.

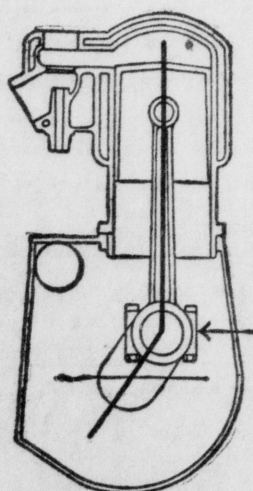

If you want building hardware or plumbing goods, see  
S. HILL & SON.

Another millinery opening scheduled for next Saturday is that of E. S. Gilbert & Co., who are enthusiastic over their hats, which they quote in that phrase they have made their own, as "the different kind."

Of one thing you may be sure and

that is that there will be something beautiful to be seen in the way of spring millinery at Gilbert's at their Saturday opening of millinery.

**In Switzerland**

Entertaining indeed was the study yesterday afternoon of the Young Ladies' Travelers Club of the Ebell, the members meeting with Miss Vera Heathman.

Besides the completion of Stoddard's delightful lecture on Switzerland, there were papers on phases of Swiss life. Miss Gertrude Montgomery gave an outline of the Swiss government. Miss Elizabeth Nunn had a paper on the city of Berne, and Mrs. Roger Newcomer wrote of "William Tell," that story of living interest.

Miss Eva Bradford contributed a delightful music number, "The Spinning Girl," by Raff, the Swiss composer.

Refreshments were served during the pleasant social hour following the study.

**Nebraska Picnic at Redondo**

Nebraskans will picnic at Redondo on Saturday, March 20, the state society having selected that as the place of meeting for the annual picnic. The picnic will be held thus early to enable the Nebraska tourists to join the former Nebraskans in a jolly reunion.

morning. The senator is an early riser.

A. J. Crookshank spent today in Los Angeles.

**A Japanese Evening**

On catching a glimpse of the spacious rooms of the Clyde Walker home last night one would have thought that a charming bit of far-off Japan had been transplanted to this Southern California shore. Tendrils of twining asparagus fern gave a familiar touch, but otherwise all was of the Orient, Japanese lanterns and tender flora decorating the rooms in a style vividly suggestive of the Flowery Kingdom. Peach blossoms in the parlor, purple iris in the living room, Cherokee roses and snowy iris in the dining room and white plum blossoms in the library lent a fragrance and quaint beauty that was fascinating. The oriental idea was suggested also by a big screen that held a place of honor in the dining room, a spreading Japanese parasol elsewhere, as well as by the effective arrangement of the springing branches of the plum and peach.

Even the gay ladies of the Tuesday Afternoon Whist club, who with their husbands were the guests at the pretty informal Japanese function, contributed to the Japanese motif, by being gowned in kimonos of the daintiest and most oriental kind, with hair dressed in the most approved Japanese way, properly decked with tiny fans and coquettish pins. Even the score cards for the whist games, and the pretty favors for the successful whist players were chosen by the hostess, Mrs. Walker, with the Japanese scheme in view, a dragon plate for the lady winning first prize, Miss Harrison, and a Japanese doll for consolation, taken by Mrs. Joe Parsons, being the quaint conceits for the ladies. A brass cigar-ash receiver with Japanese design went to Mr. Ben Turner, while Mr. J. R. Porter will hereafter eat with chop sticks given him for consolation.

The refreshments too were of the Japanese motif, the cream being served in Madam Butterfly designs, while rice wafers, cakes lettered in Japanese and confections marked with Japanese hieroglyphics were served with Japanese tea. Rice paper napkins, folded in a dozen bewildering designs, representing storks, faces and what not, were unique parts of the service.

The evening was as enjoyable as the plan was artistic. The guests of Mr. and Mrs. Walker were Mr. and Mrs. J. D. Thomas, H. Connell, Dr. and Mrs. J. I. Clark, Mr. and Mrs. Parke Roper, Mr. and Mrs. W. A. Huff, Mr. and Mrs. J. R. Porter, Mr. and Mrs. Joe Parsons, Mr. and Mrs. John Carlisle, Mr. and Mrs. O. K. Forgy, Mr. and Mrs. Frank Remsburg, Mr. and Mrs. Ben Turner, Mr. and Mrs. Maurice Yarnell, Mr. and Mrs. John Tubbs, Mr. and Mrs. Henry Rutherford, Miss Elsie Harrison, Mr. Hal McCullough.

**Early Production of Elijah**

The Symphony Society is getting well prepared for the production of Mendelssohn's great oratorio "Elijah" shortly after Easter. Constant and conscientious rehearsals are producing encouraging results and the Symphony director, Miss Dresser, is gratified at the steady progress being made.

A ladies' card club that has no name, but that has good times regardless of its nameless condition, met yesterday afternoon at the home of Mrs. Fuller.

A delicious one o'clock luncheon was the first feature of the event and was followed by an afternoon beguiled by the fascinations of whist.

The ladies playing were Mesdames Roscoe Whitted, Fred Parsons, C. M. Jordan, Chas. S. Kelley, O. K. Forgy, Robt. Shafer, Wolbach, Dr. J. I. Clark, P. G. Beissel, R. H. Sanborn, Jr., Dolly Ballard, C. V. Davis.

**Swap Social Was Postponed**

The "swap social" to have been held last evening by Torosa Rebekah, was "swapped off" for another night, Wednesday, March 24, when the event is scheduled to take place.

The reason for the postponement was the special meeting of the Odd Fellows last evening to receive an official visit from Grand Master Raker.

**Dinner party for Grand Master**

County Recorder and Mrs. George E. Peters last evening entertained with a 6 o'clock dinner, complimentary to prominent Odd Fellows. The guest of honor was Mr. John E. Raker, Grand Master of the Odd Fellows of California.

Roses and ferns were used in table decorations and covers were laid for the host and hostess, Grand Master Raker, District Deputy George Riley, Noble Grand James E. Livesey of Santa Ana Lodge No. 236, and Vice Grand Charles Mattern of the same organization.

Last night they had these friends, with Mr. McMurray and Mr. Will McClain, at a theater party at the production of "The Two Orphans" at the Grand.

**WELL PLEASED WITH TEMPLE ENTERTAINMENT**

Enthusiastic and well pleased crowds attended the shows at the Temple Theater last night for the benefit of Company L. The affair was under the auspices of the Merchants & Manufacturers Association. One of the features of the entertainment was the singing of "Tenting on the Old Campground," by the Company L quartet. A large crowd saw the parade. Benefit performances are to be given tonight.

He will accompany the train as far as Riverside and contiguous places and will address meetings upon walnuts. Mr. Neff has completed the work of top-grafting 17 acres of walnut trees. With four acres similarly treated last year this makes 21 acres of his orchard provided with new tops. Last season's grafts are doing well, and give every promise of developing into thrifty trees.

**ECZEMA A GERM DISEASE**

Myriads of Microscopic Animals Infest the Skin of the Sufferer

—When the skin of an eczema sufferer itches and burns in untold agony, do you know what is going on within the pores of that skin?

Myriads of microscopic animals are gnawing at the flesh, breaking down the fine cells and causing festers, thick scales and that terrible itch. The germs multiply faster than Nature can throw them off.

Now, there is only one way to get rid of these germs—they must be killed in their lodging places. Dosing the stomach or trying to cure the blood will not, of course, kill the germs, and that is why all the blood remedies fail in eczema; that is also why salves which do not penetrate can do no permanent good.

Ordinary oil of wintergreen properly compounded in liquid form will penetrate the pores of the skin and kill the eczema germs. If properly mixed with thymol, glycerine and other ingredients (as in D. D. D. prescription), this wash will build up the tissues of the skin and promote its healthy growth, giving nature a chance, while killing the germs faster than they can multiply.

Wingood's Drug Store, of this city, carries D. D. D. Prescription, also D. D. D. Soap in stock.

## CELERY CROP IS ABOUT ALL GONE

Growers Will Now Turn Their Attention to Cabbage and Asparagus

SMELTZER, March 10.—Celery is very nearly all gone, a few acres of Green Top on the Golden West ranch being about all there is left.

Cabbage is coming in pretty slowly as yet, but much heavier shipments are looked for soon. Asparagus is going into Los Angeles in much larger quantities, both from here and the northern and Imperial districts and the wholesale price has fallen to 8 cents a pound in the open market. However, owing to better methods of packing and the attractive manner in which the Golden West grass is

bunched, it brings much better prices than that of competitors. The Golden West has sixteen acres in grass and have imported bunching machines from New York and are having built a washing and bunching house for packing the asparagus.

Most everyone in Smeltzer made the trip to Los Angeles Sunday; Joe Bush, Jack McLarnen, Curly, Henry Lutton, Gans, Clayton, the writer and a few more going as far as the city.

A small party made the ascent up Mt. Lowe Sunday. Among the pleasure seekers were Mrs. Emma Hill and Mrs. Jennie Pickard of Berrydale, Minnie Washburn of Huntington Beach, Florence Cozad of Santa Ana, A. Gans of Smeltzer and Elmer Wolter and Art Messenger, formerly leaders in Smeltzer social activities. A good time is reported but a very cold trip up the mountain.

## EVANGELIST ORR IN SPECIAL SERVICES

Will Begin Work Here Sunday; He is Big Man of Big Heart and Big Experience

Rev. W. W. Orr, D. D., of Charlotte, North Carolina, will conduct gospel services in the United Presbyterian church, East Fourth street, commencing next Sabbath, March 14, and continuing until March 28.

Rev. Orr is the pastor of a large and flourishing Associate Reformed Presbyterian congregation at Charlotte. Having an assistant pastor, and being especially gifted for evangelistic work, he devotes a portion of each year to this special work, in which he has been eminently successful.

Dr. Orr is called "The Southern Evangelist," only because he hails from the south, as, for several years he has spent a considerable portion of each winter in the cities and towns of the North. The gospel which he preaches is for all men.

Since the first of January, Rev. Orr has been conducting services in different cities and towns in Southern California, including Los Angeles, Long Beach and San Diego. He will close his work in the West for this winter with this series of meetings in Santa Ana. He is a big man, with a big heart that goes out to help all persons. He is sensible rather than sensational.

His first message will be given Sabbath morning at 11 o'clock. There will be a service for men only at 3

o'clock, his subject for that meeting being "The Devil's Detective." The evening address for Sabbath will be given at 7 o'clock. Through the week there will be meetings every day, except Saturday, at 2:30 p. m. and 7:30 p. m. Those who hear Dr. Orr once will desire to hear him again.

### SICK HEADACHE

Sour Stomach, Heartburn, Canker Sore Mouth, Cured by Mi-o-na

—Sick headaches are caused by indigestion and a general disturbed condition of the stomach.

Cure the indigestion, and the headache, nausea, heartburn, sour stomach, and that "all in" feeling will vanish.

Mi-o-na tablets will cure indigestion or any other stomach trouble. They

DR. W. W. ORR

will relieve almost instantly. The Rowley Drug Co. has so much faith in them that he will give you your money back if they don't.

Mi-o-na cures by making the stomach strong enough to produce enough gastric juices to digest all the food you want to eat. It promptly puts new life and energy into the overworked and played out walls of the stomach.

Use Mi-o-na for a week, and you can eat what you want any time you want it, and take pleasure in doing it. Your blood will be richer, redder, purer after taking Mi-o-na, and it only costs 50 cents a large box.

"I was speedily cured of stomach complaint by Mi-o-na. Anything I can say in favor of Mi-o-na is not too strong."—William Hess, Benton Harbor, Mich.

### SOME OF THE THINGS THAT HE WOULD DO

Orange County Tribune: F. R. Bain believes the state should offer a bounty on gophers and squirrels instead of paying for the killing of coyotes. He says gophers do ten times as much damage as coyotes, and he is right. Mr. Bain also says we should have a law compelling lot and land owners to clean up in front of their property. Another ideal suggestion. He says some of the eastern states have such laws and are well pleased with them. Mr. Bain says the city trustees cannot be too strict in compelling people who reside on the streets entering the city to keep the sides of the highways cleaned, and he is right. The rubbish alongside some of the roads in this section is certainly a disgrace to any civilized community.

## APRICOT MEN WANT THE SUN

Ten Days More of Clear Weather and Crop Will Be a Bumper One

Indications Point to Better Prices Than Were Gotten Last Year

There being no hard rain in the next ten days Orange county will have the largest apricot crop in several years. The trees are covered with blooms and in some of the orchards the tiny fruit is already set. Ten days from now the orchards probably could stand a rain, but just at present apricot growers would ask the weather man for clear skies. The indications are said by a well known produce buyer to be that the price this year will be better than last year. According to the estimates of the county statistician, Orange county in 1908 produced 1,225,000 pounds of apricots sold green for \$20,000 and 2,820,000 pounds dried sold for \$112,800.

### TWO MILLION DOLLAR COMPANY FOR CORONA

CORONA, March 11.—The Grindrod Rotary Machine Company, composed mainly of Corona men, has applied for articles of incorporation. The directors include John Grindrod of Los Angeles, O. A. Huxsaw, M. Terpening, R. S. Billings and G. R. Freeman of Corona. The stockholders say the magnitude of the plant and business in prospect warrant them to incorporate for \$2,000,000.

### The Story of a Medicine.

Its name—"Golden Medical Discovery" was suggested by one of its most important and valuable ingredients—Golden Seal root.

Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical experts, teachers and writers on medicine, who recommend them as the very best remedies for the diseases for which "Golden Medical Discovery" is advised.

A little book of these endorsements has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be mailed free to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompanied with catarrhal discharges, hoarseness, sore throat, lingering, or hang-on-coughs, and all those wasting affections which, if not promptly and properly treated, are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will. It will cure the affections that lead up to consumption, if taken in time.

DROPS SPONGE  
KNEE INJURED

Tucker Says Carlson Brought  
on Accident Through Play-  
ing Practical Joke

According to Earl Tucker's side of the story the incident that has brought about the Superior court action in which a man named Carlson is suing Tucker for \$10,000 damages was the result of a practical joke played on Tucker by Carlson. The complaint states that Tucker threw a floor scraper at Carlson and struck him on the knee, injuring the knee so badly that Carlson cannot use it.

Tucker says that he was scraping a floor when Carlson dropped a wet sponge on the back of Tucker's neck. Tucker was startled, as most anyone might be, and he threw up his hands and the floor scraper whirled from his grasp and accidentally struck Carlson.

"If Carlson had been minding his business," says Tucker, "the accident would not have happened," and Tucker would not now be defendant in a \$10,000 damage suit. Tucker lives near Anaheim.

Magdalena F. Jepson and her attorney, Clyde Bishop, have decided to take another legal whirl at Christian Jepson, to see if he cannot be made to pay the alimony he was ordered to pay Mrs. Jepson. This morning a citation was issued to Jepson to appear in the Superior court at 10 o'clock on March 19 to show

cause why he should not be punished for contempt for having failed to pay his divorced wife the sum of \$400. Several months ago Jepson was before the court upon the same charge and he was placed in jail for contempt.

At one time Jepson was in the county jail for twenty-seven days. At the end of that time he deeded his equity in a piece of property to his wife and squared himself up to that date.

### Millinery Merits

—While the subject of millinery is really a sealed book to the majority of men—married or single—yet the average man of any age or station, is able to recognize instantly real “millinery,” in the higher sense, as compared with a “mere hat.” In designing a hat that meets the requirements of the wearer, the best and most expert creative milliners has also in view what will be most pleasing to the masculine eye. The difference may consist of any one of a score of features—the styling, trimming, coloring, the position of ornaments, etc. The twist or turn of a feather or flower makes all the difference in the world in the finished appearance of the hat, and the placing of a buckle or ornament, the curve of the straw, felt, or whatever the groundwork material, will give the headpiece that “chick,” stylish, fetching look that marks the distinguishing line between “fashionable millinery” and an “ordinary hat.”

The price? Oh, yes, that is apt to be different, too, but then one must expect to pay extra for style nowadays, and a woman would as soon be “out of the world as out of fashion.” And yet, when you realize you are getting the best materials, the latest styles and best creative ability, you feel that it is worth while. It is our invariable rule, however, to charge only for materials and work, adding only a reasonable profit. Style and creative genius cost you nothing here.

Our superior showing of new spring millinery is now ready for your inspection; we will be pleased to have you call. Our formal opening will be held on Friday and Saturday, March 12 and 13. Miss Schumacher, Main Department Store Milliner.
